Save Life on Earth

The World Future Council's youth campaign on Climate Protection
"KidsCall" has given tens of thousands of young people from over 45
countries a platform to confront politicians with their hopes and fears
concerning climate change and environmental degradation. In July 2008
KidsCall participants met the Indian, German and Japanese governments
personally to urge them to guard the planet for future generations and
handed over the appeals. All other G8+5 governments, who could not
meet us personally received a 10m long scroll of pressing letters, e-mails,
pictures and video messages.
