Why Faith in God is #1 Principal?

- Alignment with the Default of the Universal System
- With this principal, the parable of this effort is like a good tree, whose root is firm and whose branches are in heaven; It brings forth its fruit at all times, by the leave of its Lord.
- Without it, the parable of this effort is as an evil tree pulled up from the earth's surface; it has no stability.

Believe in God is a No-Brainier?

- Even for a nomad;
 - an animal dropping is → a sign of an animal
 - foot prints are → a sing of walking
 - an earth with ravines, and a heaven with stars
→ are signs of
a magnificent creator

Why not Belief in Something Other Than God?

- He is the only true existence
 - everything else's existence is secondary
- He is the true doer in this universe
 - nothing happens without His permission
- Otherwise, it is building an establishment on weakness, and error.

What Difference Does it Make?

- Freedom from fear from and want to any creature, myth, or idea
- Clear direction in life
 - Source of values
 - Focus in intentions
 - Understanding dynamics of life
 - Bond to humanity and creation in love and compassion is perceived as Gift
 - Higher outlook; a mortal not limited by time and space

We Respect Differences in Conviction

- Had God wanted us on the correct faith in Him, He would have done that
- He wants the surrender of the hearts to Him not the molds before the sight of people
- If the Creator has not coerce His creatures to believe in Him, then no man can do so
- With diversity and divergence in convictions, we have to make our choice, and understand that we will be accountable for it
 - There are no excuses

When We Get Stuck on Differences

- We work with one another in what we agree upon, and excuse one another on what we differ about
- We are still brothers and sisters in humanity, coming from the same origin
